OUR GUARANTEE

The purpose of this guarantee is to safeguard your interests—to remove all risk in buying from us, to insure you against any possible disappointment. Each and every article in this catalog is therefore offered with the understanding and agreement that it must satisfy you perfectly; that it will give the service you have a right to expect; that it represents full value for the money you pay.

If there is the slightest dissatisfaction for any reason, we expect you to return the purchase to us at our expense. We will then exchange it for exactly what you want or return your money, including any transportation charges you have paid.

TO

OUR CUSTOMERS

IN EVERY POSTOFFICE in every state in the United States there are families who are our customers and we supply a large majority of these families with practically everything they eat, wear or use—everything needed for personal use, for the home, the farm, the office or the factory.

In buying from us these families are saving about fifteen million dollars annually, and this tremendous saving is matched by an equal advantage in quality, for it is the fundamental law of our business that quality must never be sacrificed to reduce price. We have the most highly perfected methods of buying, making and marketing ever devised by any business institution. We insure highest quality and lowest price by our perfect control of the source of supply, reaching back to the raw material in many lines, supplying carefully selected materials to carefully selected factories either owned or controlled by us, watching every step in the making through the eyes of our own trained experts; putting into the goods every possible improvement in quality, taking out of the goods every item of unnecessary cost.

WE HAVE ADOPTED EVERY IDEA, every device, every method of proved value in order that our customers may enjoy the best possible service. We endeavor to give service that is even better than you might reasonably demand. Fair criticism of our service, our goods and our business methods is sincerely invited. In fact, we are largely dependent upon such criticism for the correction of errors and the improvement of our methods. When we receive criticism or complaint we not only adjust the difficulty specified, but we investigate the cause of the complaint and we take steps to make a repetition of the same trouble unlikely. Our customers rightly expect the best goods, the best service, the best treatment; we desire to give you all these and more. We have endeavored to make the above statement so clear that our customers will fully understand our purposes and will feel free to bring any faults to our attention and be assured of prompt and satisfactory action.

MANTEL FIREPLACES

COAL OR GAS

Oxidized Copper and Berlin Black Finish on Cast Iron in More Beautiful Styles Than Ever Before Offered by Us or Any Other Mantel Manufacturer.

STYLE for style, price for price, quality for quality of workmanship and material, they are unsurpassed by any other line of mantels and consoles ever offered by us or any other manufacturer at anything like our prices.

Shipped Direct From Factory to Fireside. Each and every mantel and console illustrated on these pages is designed to give our customers the best possible value at the lowest possible cost of material and labor, with but our one profit added.

From factory to fireside avoids the expenses and profits so necessary to the old fashioned selling methods which take from your community a larger sum of money than our price to you direct; which take from your village, your town, your county or your city a sum that should remain in the pocket of the house owner who buys; which deprive your community of the sum that should remain in your own pocket for your own use and home circulation. Contrary to the much printed story that the dollar sent to the mail order catalog house never comes back, you are enabled to keep more dollars in your own pocket by buying to your best personal advantage wherever the opportunity offers.

Don't be deceived by anyone who tells you we cannot furnish velvet rubbed, luster polished, full quarter sawed oak, palace car finish mantels with mirrors at $12.98 to $33.00, and plain sawed oak mantels from $2.22 to $21.00, but send us your order for one or more and prove it yourself, remembering that we guarantee them to be all and more than we claim for them, the best value you ever saw at anything like the price, or you can hold them subject to our orders for disposal, and we will return all your money, both the purchase price and any freight charges you may have paid.

$2.22. When we tell you we can furnish you a solid oak mantel base like No. 61B1413 with shelf and top apron at $2.22;

$7.49. When we tell you we can furnish you a solid oak handsome plain sawed mantel with mirror like No. 61B1406 for $7.49;

$13.52. When we call your attention to that beautiful velvet rubbed quarter sawed oak mantel with mirror, illustrated as No. 61B1336, and tell you it is solid oak, full quarter sawed, and second to none at anything like the price of $13.52;

$21.60 When we claim that elegant full polished full quarter sawed oak mantel, illustrated as No. 61B1351, has no competition at our price of $21.60;

$31.85. When we offer that incomparable palace car finish mantel with 5-inch columns, illustrated on page 17, in full quarter sawed oak at $31.85, you will know that we make the finest line of full quarter sawed solid oak mantels, the best line of medium priced quarter sawed and straight grain plain sawed solid oak mantels with mirrors ever before offered, and while you are startled with these wonderfully low prices, you will agree with us that you cannot afford to look elsewhere, whether you are building a new house, remodeling an old one or dealing in mantels for profit.

A Guarantee That Means Something. To those who may not have dealt with us before, to those who may still remain in doubt as to the quality of material and workmanship we offer at these wonderfully low prices, or to those who know full well our liberal methods of giving satisfaction or returning the money, but who may still be in doubt about ordering beautiful shape, fine surface, red pressed mantel brick, or palace car finish, piano polished, full luster polished, or fine gloss finished woodwork from a distance, we fearlessly offer to ship you any mantel or console selected from these pages, allow you to take it to the house where it is to be used, examine it carefully, and if you do not find it perfectly satisfactory in every particular, of better quality than you could obtain elsewhere at anything near our price, if you are not convinced that you have saved money, even after paying the freight charges, you can repack it and hold it subject to our orders for disposal, when we will promptly return your money, giving you shipping instructions to return it direct to our factory.

Daring as this offer may seem, it is fearlessly made, because we are absolutely sure of the quality of these goods, absolutely sure we will please you, and absolutely sure you will make a large saving, even after you pay the freight.

Direct from Factory to Fireside. While these magnificent brick or wood mantels, with or without our beautiful art tile and handsome equipment of grate outfits, are offered at these wonderfully low prices, we are also able to save you much in freight charges because of our shipping the goods direct from the factory. Locating the factory at a central point, the shipping advantages north, south, east and west are as nearly equal for all our customers as we could possibly make them. By shipping direct from the factory to you we eliminate the cost of handling into and out of our Chicago buildings, giving our customers the benefit of the actual cost of material and labor, with but our one profit added. At these "live and let live" prices we give you the best value in beautiful consoles and mirrors, wood mantels, brick mantels, high art mantel tile and artistic mantel fireplaces ever offered by us or any other manufacturer.

Remember that no matter from whom you buy mantels and consoles you must always pay the freight charges. If you do not pay them at the depot in the form of freight charges you pay them when you buy the goods in the form of a higher price. There is not a single item of expense that anyone can save you that we do not save you.

Bedford Red Pressed Brick Mantel

Design No. 61B1278

Bedford Red Pressed Brick Mantel $67.20

Design No. 61B1278

The continually growing demand for brick mantels with large brick open fireplaces causes us to present for the approval of our friends and customers the design shown on the opposite page, knowing it will appeal to the artistic sense of many and that its character and refinement will be appreciated by all.

For beautiful residences, homelike bungalows, country clubs and pleasure resort hotels it has no equal in attractiveness and is quite capable of being adapted to a room of any size, by changing its dimensions when necessary, at a small change in price.

Design No. 61B1278 is especially adapted for high ceilings and timber constructions. It has a projection into the room of 21 inches, and the square fireplace opening will allow the use of large, elegant, befitting andirons where wood is to be burned, for either artistic entertainment or practical heating. The same delightful effect is produced where gas logs are to be used, and the elegance of this construction does not become lessened by use of the portable coal basket, which permits a coal fire to produce like artistic effects with the other fuels named. The panels, together with the jack arch over the fire opening and the ornamentals shown at the top cornice, the middle cornice and the cornice at the long mantel shelf, are all made of Bedford smoothest red pressed brick, of a quality unexcelled by any other brick to be had elsewhere, and all combine to form a beautiful and pleasing exterior. The hearth is to be paved with brickettes $1\frac{9}{16}$x$1\frac{9}{16}$x8 inches.

Bedford Red Pressed Brick Mantel

Design No. 61B1279

Bedford Red Pressed Brick Mantel $64.25

Design No. 61B1279

Bedford red pressed mantel brick are unequaled for richness of color, perfection of shading and uniformity of size. They are not artificially colored, but are the natural color of the shale from which they are manufactured, a property that preserves the beauty of the mantel throughout its entire existence. This fact enables us to guarantee them to be absolutely unfading.

The mantel design shown on the opposite page impresses its sterling character on the observer, as distinguished from the stilted designs that are stultifying the efforts to make artistic homes due to the use of the common form of building brick, without even saving a dollar or two, yet sacrificing the beauty desired by the home builder.

Design No. 61B1279, with its ornamental pilasters, its broad top shelf and alcove shelf, all trimmed with ornamental bricks in simple but elegant taste, together with the jack arch over the fire opening, make a most harmonious arrangement and pleasing appearance. It is especially designed for large living rooms, bungalow parlors and club house reception rooms. The hearth is to be paved with brickettes $1\frac{3}{16}$x$1\frac{3}{16}$x8 inches.

The price of standard and molded bricks to lay up this mantel includes hearth, firebrick and under fire, complete. Price, packed in barrels and delivered on the cars at the works in Pennsylvania, $64.25.

Remember, Bedford red pressed brick, quality for quality considered, is the best mantel brick to be had anywhere at any price. Strong red brick, smoothly faced, uniform in size and the fine red brick color is positively unequaled for its richness and uniformity in shade of color so essential to face brick to be used in fine brick mantels. The ornamentals will match the shade of color and fit to the sizes of the standard brick used in the same mantel. All arches are ground carefully and a full size detail of every arch is furnished with every mantel shipped.

We furnish free of charge with every mantel shipped a blue print showing scaled working drawings of the plan for setting up the mantel. We also furnish instructions for the proper construction of chimney flues where open fireplaces like these are to be built.

Bedford Red Pressed Brick Mantel
Design No. 61B1288

Bedford Red Pressed Brick Mantel $44.40

Design No. 61B1288

To please the tastes of those who do not admire the taller mantels illustrated on the preceding pages, and to satisfy the demand for Bedford Pressed Brick Mantels in smaller homes, we illustrate on the opposite page as elegant a mantel as any of those on the preceding pages, equally as attractive, but of a different size and at a lower price.

It is a cottage mantel, but equally adapted to any residence where a brick mantel is contemplated.

Design No. 61B1288 does not require a high ceiling for proper effect, yet it is equally as distinguished in a room with a ceiling 10 feet high, 9 feet high or only 8 feet high. The beaded projection around the fireplace, suggestive of a grate frame, is most attractive. The hearth is paved with brickettes $1\frac{9}{16}$ x$1\frac{9}{16}$ x8 inches, and the ornamental course around the fire opening adds to the general effectiveness of the mantel. The ornamentals supporting the shelf are carefully selected and they, together with the standard cornice at the top of the mantel breast, add a decorative effect. The projection into the room is 12½ inches and the fire opening is large enough to receive all standard size gas logs, or good lengths of firewood if andirons are to be used and wood burned.

Bedford Red Pressed Brick Mantel

Design No. 61B1289

Bedford Red Pressed Brick Mantel $27.60

Design No. 61B1289

The simplicity of this design is its recommendation. Sterling character distinguishes it and it is most attractive, whether used in a cottage parlor, a bungalow living room, or a dining room in any type or style of residence.

Bedford Red Pressed Brick Mantels add dignity to the small home and promote the rapid sale of houses built to be disposed of to buyers attracted by the artistic surroundings always incident to the presence of one of these beautiful mantels.

Design No. 61B1289 contemplates being constructed in rooms with ceilings 9 feet high or under. It is a simple but very effective mantel, with a projection of but 4 inches. The hearth is paved with Bedford red brickettes, $1\frac{9}{16}$x$1\frac{9}{16}$x8 inches, making a very nice appearing hearth the thickness of the brickette. This mantel has a cove base, making a nice finish at the bottom, and immediately above the alcove recesses begins a cove rest, projecting outward $\frac{5}{8}$ inch, above which is found a layer of short Roman Bedford red pressed brick, followed immediately above it with a cornice outwardly curved, dentilated brick, with a further projection of $1\frac{3}{8}$ inches, and the mantel top itself is smooth laid with short Roman red pressed brick, completing a perfect design of simplicity and elegance unequaled for small homes.

Nos. 81 and 89.

At $2.93 and $3.67, complete with the summer front, there is none to compare with it in simple beauty and elegant finish at anything like the price. It can be placed in position by any ordinary brick mason who may be lining up the sides of the fireplace with common firebrick for you. Nothing more elegant in appearance could be selected.

At $2.93 and $3.67 it consists of the frame and summer front, as shown in the illustration to the left, including the basket and ash guard as displayed to the right and in the reverse view.

Prices, delivered on cars at the foundry in Ohio.

The face of these Acme Beauty Grate Outfits is all oxidized copper plated, excepting the basket and ash guard, which are finished in black on account of the action of the heat directly against them. The summer front is stamped out of sheet steel and beautifully oxidized copper plated.

The bottom bars in these coal grate outfits are V shaped, strengthening them in heat resistance, and are made very heavy and durable. These Acme Beauty Coal Grate Outfits do not include any firebrick, as the same can be bought in your locality for less than the freight on them would amount to.

Full Quarter Sawed Luster Polished Solid Oak Mantel With Mirror

Illustrated on the Opposite Page. Reduced to $20.98

Examine it carefully, from the quarter sawed box pilasters with their simple square tops connecting the top shelf, to large mirror beveled at the top and at both ends, with the lower edge of the mirror plain, extending behind the lower shelf, which is 10 inches deep. The duplicate reflection of the lower shelf in the mirror without bevel at the bottom line, repeats the width of the shelf in the reflection, and is the most modern mantel mirror now used in all the higher types and styles illustrated on the preceding pages.

$20.98 for this mantel and mirror in full quarter sawed luster polished oak, delivered on the cars at the works in Ohio, is accomplished by the best efforts of a designing room devoted to producing the latest and most modern patterns, the accomplishments of a cabinet workshop devoted entirely to pleasing the public with the high finish in hand rubbing and hand polishing, and the result of careful inspection by careful buyers of choice selected quarter sawed oak, free from blemishes of every kind.

In locating our works in Ohio we had in mind the results to be attained in equalizing the cost of freight to all our customers. This location is the most central of the central states, and places within the reach of our customers living east, west, north and south an opportunity to own our mantels at the lowest possible average rate of freight to all alike.

While $20.98 is for this Full Quarter Sawed Luster Polished Oak Mantel and Mirror Only, yet you may own the choicest art tile for the fireplace facing and hearth, either in our beautiful satin-matte finish in solid color tints and shades, in our brilliant mottled iridescent lustered enameled tile, furnished in color tints and shades that neither fade nor tarnish, or in our Mission finish dull unglazed encaustic tile in brick red or brick buff. See page 11 for full description and prices of these beautiful tiles.

Our Coal and Gas Grate Outfits. On pages 12 to 15 we carefully illustrate and describe magnificent coal grate outfits, complete ready for placing in position, known as our Sunbeam Grand Open Fireplace, our Spaulding Royal Open Fireplace, and an assortment of coal and gas grate outfits unequaled anywhere at anything like our prices. You can make your selection from them without fear that your judgment will not be good, for any of these grate outfits will be equally elegant in appearance, beautifully oxidized in copper finish, and the difference is only in the interior construction, which we fully describe in those pages.

Mantel No. 280, illustrated on the opposite page, is 7 feet high and 5 feet wide. The full length box pilasters measure 4½ inches. The mirror is beveled at the top and both ends and measures 40x18 inches. The shelf below the mirror is 10 inches deep. The tile opening from woodwork to woodwork is 42x42 inches, requiring a tile hearth 24 inches deep, extending the full width of the mantel. Profile, 2½ inches. Shipping weight, 240 pounds. $21.00 IS OUR REDUCED PRICE FOR THE MASSIVE STRAIGHT GRAIN PLAIN SAWED GOLDEN OAK MANTEL

WITH ITS QUARTERING VENEERED BIG BOX TOP SHELF, ITS QUARTERING VENEERED DEEP LOWER SHELF AND ITS FULL LENGTH QUARTERING VENEERED 5-INCH COLUMNS, EXACTLY AS ILLUSTRATED ON THE OPPOSITE PAGE

While $21.00 is for the mantel woodwork and mirror only, still we offer on page 11 the opportunity of equipping it complete with the necessary tile facing and hearth and on pages 12 to 15 we quote a choice selection of mantel fireplaces, both coal and gas, or a blank grate outfit where fireplace is not used. Select one of these beautiful oxidized finish or Berlin black finish mantel fireplaces and a complete set of art tile for facing and hearth, either in our satin-matte finish in solid color tints and shades, in our brilliant mottled, iridescent lustered enameled tile, or in the famous Mission finish dull unglazed encaustic tile; no handsomer home decoration can be furnished by any other manufacturer or mantel dealer at anything like the price.

Shipping these mantels direct from the works in Ohio places them within the reach of all our customers, whether living east, west, north or south, at the lowest possible average rate of freight to all alike. By our modern method of eliminating the expenses and profits of the middlemen we are enabled to place these wonderful values at your home station at a saving to you of at least 50 per cent, even after you have paid the low rate of freight from the factory in Ohio.

Send us your order for one of these great mantel values, examine it at your station, or take it home, set it up and criticise it fully and thoroughly. If it is not all and more than we have claimed for it, notify us and we will give you shipping instructions to return it to the mantel shops in Ohio, and will promptly return you the money you have expended.

Decorative Art Tile for This Big Mantel

Satin-Matte Finish Mantel Tile is the modern soft, satin or dull finish enameling in the new, novel, attractive solid colors so much favored by architects, decorators and home designers. We furnish it in dark greens, dark olives, browns, chocolates and buffs, a splendid dark red oxblood and a beautiful dull finish ivory white. All are solid colors in matte enamel tile.

$14.99 Semi-Mission Solid Oak Mantel $14.99

Golden Finish, Unless Ordered Mission Finish, Reduced to

$14.99 is the price of this Semi-Mission Type Plain Sawed Straight Grain Solid Oak Mantel, as illustrated on the opposite page. Greater value was never offered in a solid oak mantel with mirror, and when equipped with your selection of our art mantel tile and one of our oxidized copper plated grate outfits, it cannot be equaled in style and simple beauty anywhere at anything like the price. Made from clear, unblemished solid oak by skilled cabinet workmen, and given the same careful finishing and glossing as the higher priced mantels on the previous pages, making this a wonderful value at $14.99. Shipping these mantels direct from the works in Ohio places them within the reach of our customers with the lowest average rate of freight to all alike, whether they live east, west, north or south, gives them the full benefit of our low cost of material and labor without any of the intermediate long profits and long expenses incident to the old fashioned selling methods. Direct from factory to fireside is our money saving system.

We dare to take all the risk of pleasing you by finishing, packing, crating and shipping this mantel, selecting and boxing a set of tile in perfect harmony with the woodwork, packing any grate outfit you may select from the choice assortment we show on the opening pages of this book, and shipping any or all of these items to you with the distinct understanding and agreement that if they are not all and more than we claim for them, do not prove to be greater value than anything you ever saw at anything like the price, do not reach you in perfect condition, free from mar, scratch or injury in transportation, you may hold all or any part of the equipment subject to our orders for disposal, and we will not only return your money, but will include any freight charges you may have paid.

$14.99 being our price for the woodwork and mirror only, make your choice from any of our oxidized copper plated grate outfits, either for coal or gas, fully illustrated and described on pages 12 to 15, adding your selection from page 11 of art tile for fireplace facings and hearth, either in our beautiful satin-matte finish in solid color tints and shades, our brilliant mottled iridescent lustered enameled tile, or in our Mission finish dull unglazed encaustic tile, and you will have the choicest home appointment that could possibly be installed at anything like our prices.

Mantel No. 278, illustrated on the opposite page, is 7 feet high and 4½ feet wide, with wall plates set to 5 feet. Its columns are 3¼ inches square, and its shelves are 9 inches deep, extending the full width of the mantel. $9.99 is Our Price for the Golden Oak Mantel Illustrated on Opposite Page. Reduced to $9.99

DELIVERED ON THE CARS AT THE WORKS IN OHIO

$9.99 is for the mirror and woodwork only, and means exactly as illustrated on the opposite page, made of straight grain plain sawed solid oak in golden gloss finish unless requested in other colors. It is made from the same high grade, carefully selected lumber as the choicest mantels quoted on the preceding pages, and receives the same careful cabinet workmanship from the hands of the same highly skilled cabinet workers.

Do not doubt the great value apparent in this choice mantel simply on account of its price being only $9.99, but if its general style meets with your approval, send us your order; receive it and examine it carefully, and if you do not find it all and more than we have claimed for it, the greatest value you ever saw at anything like our price, notify us and we will gladly return you the money, together with any freight charges you may have paid.

Shipping these mantels direct from the works in Ohio places them within the reach of all our customers alike, whether living east, west, north or south, with the lowest possible average rate of freight, giving each and every one the benefit of the actual cost of material and labor, with but our one conscientious margin of profit added. By our modern method of eliminating the large expenses and large profits of the middlemen we are able to place these mantel values at your home station at a large saving to you, even after you have paid the low rate of freight from the works in Ohio.

Grates and Tile. Make your selection from among any of our oxidized copper plated or Berlin black coal or gas fireplaces illustrated and described on pages 12 to 15. $8.98 Is Our Reduced Price for the Golden Oak Mantel Illustrated on the Opposite Page $8.98

Delivered on the Cars at the Works in Ohio.

$8.98 is for the mirror and woodwork only, and means exactly as illustrated on the opposite page; made of straight grain plain sawed solid oak in golden gloss finish unless requested in other colors. It is made from the same high grade carefully selected lumber as the choicest mantels quoted on the preceding pages, and receives the same careful cabinet workmanship from the hands of the same highly skilled cabinet workers.

Do not doubt the great value apparent in this choice mantel simply on account of its price being only $8.98, but if its general style meets with your approval, send us your order; receive it and examine it carefully, and if you do not find it all and more than we have claimed for it, the greatest value you ever saw at anything like our price, notify us and we will gladly return you the money, together with any freight charges you may have paid.

Shipping these mantels direct from the works in Ohio places them within the reach of all our customers alike, whether living east, west, north or south, at the lowest possible average rate of freight. By our modern method of eliminating the large expenses and large profits of the middlemen we are able to place these wonderful values at your home station at a large saving to you, even after you have paid the low rate of freight from the works in Ohio.

Grates and Tile. Make your selection from among any of our coal or gas fireplaces illustrated and described on pages 12 to 15. Add your selection of art tile from page 11, and you will have a mantel with fireplace equipment that will be a pleasure to you and a credit to us.

Exactly as Illustrated on Opposite Page Reduced to
Direct From Factory to Fireside.

This massive mantel base is most imposing in reception hall, parlor, dining room or bedroom when mirrors are not desired or are provided in other surroundings. Its magnificent quartering veneered box shelf has a graceful ogee form, is 12 inches deep, extending the full length of the mantel, and its face is 12 inches high.

$16.50 for this splendid modern type in full quarter sawed luster polished oak, delivered on the cars at the factory in Ohio.

While $16.50 for this massive modern novel quartered oak mantel is for the mantel woodwork only, yet on page 11 we offer the choicest assortment of art tile for fireplace facing and hearth, either in our beautiful satin-matte finish in solid color tints and shades, our brilliant mottled iridescent enameled tile furnished in color tints and shades that neither fade nor tarnish, or in our Mission finish dull unglazed encaustic tile in brick red or brick buff.

On pages 12 to 15 we carefully illustrate and describe a splendid assortment of coal and gas grate outfits, enabling you to complete one of these mantels with the choicest tile and most durable fireplace ever offered by us or anyone else at anything like our prices.

Mantel Base No. 281, illustrated on the opposite page, is 6 feet 4 inches total height and 5 feet wide. The massive deep ogee box shelf has a top surface 12 inches wide extending the full length of the mantel, and its top surface is 5 feet above the hearth. The quartering veneered columns are 5 inches in diameter. The tile opening from woodwork to woodwork is 45 inches high and 42 inches wide, requiring a tile hearth 24 inches deep, extending the full width of the mantel. Profile, 3 inches. MOSAIC FLOOR TILE, WHITE ENAMELED SANITARY WALL TILE, COVE BASES, DOOR TRIMS, STOPS AND ANGLES

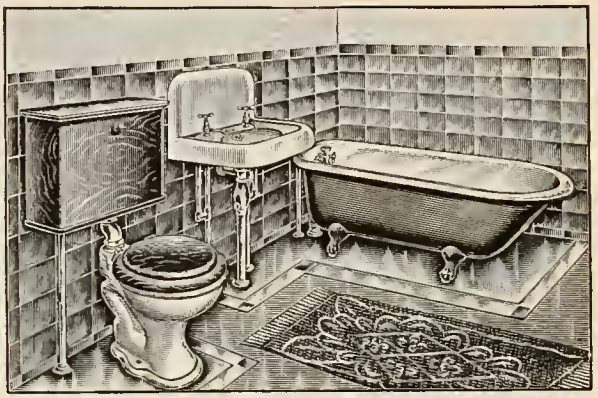
Own one of these beautiful ceramic mosaic tile floors in your bathroom and your neighbors will never cease to envy you the luxury and beauty of it until they own one like it. It is sweet, clean, washable and can be kept immaculate. Splash as much as you please and the last drop can be wiped away leaving no trace that the room has ever been used. Its wonderful beauty as the gentle undulation of light flows over the whole results in repose but not monotony.

Startling as it is, impossible as it may seem, yet we are prepared to tell you all about how you can have a Ceramic Mosaic Tile Floor in your vestibule, your bathroom or any other room. We are prepared to furnish this wonderful material in the proper form and design for laying the floor with the help of your local mason or handy workman. We tell you all about how these little ¾-inch adamantine pieces are delivered to you ready for placing in position in the design selected, without the services of a skilled tilewright being necessary. They are shipped to you flexibly connected over the top surface in sections 2 feet long by 1 foot wide, and when placed in position the flexible sheet connecting them is easily removed by moistening. Each and every layer will match complete to fit your vestibule, your bathroom or any other floor, whether it is odd shaped or square.

Send for our beautiful color plates showing this wonderful material in beautiful color designs with borders and center pieces, most artistic, or in plain white 1-inch hexagons or ¾-inch squares for bathroom floors.

Order one for the entrance vestibule, selecting the rich, warm colors we have to offer, and reap the reward of pleasure to yourself in the admiration of your visitors.

Order one for the kitchen, pantry or dairy of simple, cleanly colors and feel the pleasure and comfort of knowing how clean, sweet, pure and sanitary it can be kept with but the use of soap and water without fear of defacing, softening or affecting it in any manner.



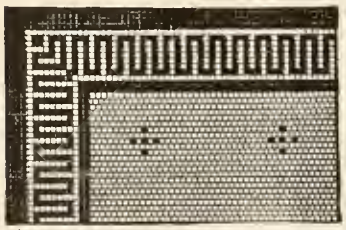
House Owners, Builders, Contractors and Architects: Send us a rough sketch with accurate measurements, or your blue prints, and let us estimate on tiling the bathroom, the kitchen or any room where pure white sanitary wall treatment appeals to you.

No. 61B1530 White Enameled Wall Tile.
Price, per square foot.....**22½c**

While sanitary bases, caps, door trims, stops and angles are all extra, if you will send us a rough sketch with accurate measurements of the room to be tiled, we will send you our estimate free of charge, showing exactly how many square feet of tile and extra trimmings will be required, or if you prefer a plain design of beautiful white tile like we show in the illustration above, in its beautiful, clean, pure simplicity, free from ornamentation, caps or extra trimmings of any kind, you can estimate the number of square feet, sending us your order, and we will be glad to ship it at 22½ cents per square foot after submitting to you our drawings or plan illustrating exactly how we understood you desired it installed. Send for our special Tile Book, giving you thorough, complete instructions in setting wall tile.

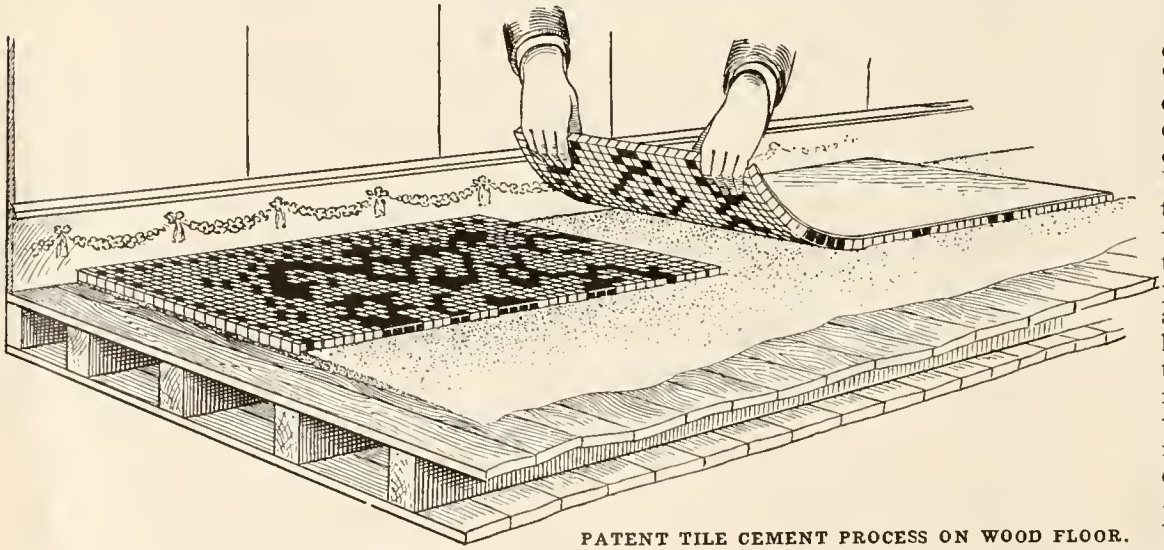
While the illustration of the bathroom shown above must be printed in lights and shades, yet this bathroom contemplates a white tile wainscot. We guarantee to please. We guarantee the quality. We save you money. Send us your sketch with accurate measurements and let us estimate for you.

16 CENTS AND UP PER SQUARE FOOT



Drug stores, ice cream parlors, banks and saloons, take notice! Why not have the cleanest, most sanitary, the easiest swept floor in the world when it can be had for only 16 cents and upward per square foot, ready for laying? Ceramic mosaic floors are supplanting wooden floors, and even marble mosaic floors, because of their non-absorbing, aseptic, sanitary qualities and their wonderful durability. They are unexcelled for banks, office buildings, schools, churches, hotels, restaurants, saloons or meat markets and at our heretofore unheard of price of 16 cents per square foot, ready for laying, you cannot afford to use the old wooden floors.

You Can Lay Tile Successfully on Old Wooden Floors



PATENT TILE CEMENT PROCESS ON WOOD FLOOR.

When inconvenient to cut out the old floor and "rough in" for the usual concrete cement bed, tile can be laid successfully on the old wooden floor. When the floor is in active daily use, our patent tile cement process, illustrated opposite, enables you to lay the tile in the afternoon, let it set and harden over night, grout the joints the next morning, and proceed to use the floor at noon the next day. Send for our color plate book for full and complete instructions on this process.

Write for our color booklet showing our beautiful assortment and designs. Make your selection and send us your order with a rough sketch of the floor to be tiled and we will send you a perfect plan, drawn to scale, so that no one need make a mistake in laying it perfectly. We will pack with the tile the instructions for laying and leveling the bed and laying the tile so that it can be done as perfectly as if you paid $10.00 per day for the most expert tilewright to come from a distance to do the work for you.

DIRECTIONS FOR SETTING WOOD MANTELS, TILE AND FIREPLACES

As all fireplace mantel grates are made in standard sizes, 24½ inches wide by 30¼ inches high, or 30½ inches wide by 30¼ inches high, you should have your chimney finished with its brick opening either 24x30 inches or 30x30 inches. The depth of the opening should vary according to the kind of grate outfit you intend to use. If the chimney breast extends into the room, the total width of the brick work should not be less than the width of the mantel selected. When the chimney is laid up, the mason at the same time can provide a suitable brick or concrete foundation for the hearth, but if this is not done you can easily arrange for it later, as shown in the accompanying diagram. A space the exact size of the hearth is cut out of the flooring and a false floor is let down between the joists and is supported by furring nailed to the joists. You can turn an arch of brick work to support the hearth or you can simply fill in loose brick and concrete and build the foundation up to within ¾ inch of the finished floor line.

Now measure the profile of your mantel, by which is meant the distance the tile facing will have to extend out from the face of the rough chimney breast in order to fit up against the front woodwork of the mantel. Lay off the size of the tile opening of the mantel or tile facing on the chimney breast, marking the lines with a pencil or piece of iron, and then build out the rough work for the facing so that it comes within ¾ inch of the total profile distance. This rough work can be done with common brick and mortar. As the profile differs in the various mantels, the amount of rough work will vary considerably. If the profile of the mantel is shallow you will not be able to use full bricks, and for very shallow profiles the foundation for the tile can consist of cement or mortar only. Care should be taken to keep the rough work from extending beyond the lines which you have marked upon your chimney breast, so that there will be no projections of brick or mortar to interfere with the mantel setting back against the chimney face. The work should be finished off quite smoothly and should be kept perfectly plumb. In building out the brick work over the fireplace opening you will need an iron arch bar to support the masonry.

You are now ready to lay your hearth and on the concrete foundation which you have prepared you should spread a covering of about ⅜ inch of cement (one-third Portland cement, two-thirds clean, sharp sand, mixed with water to a fairly stiff consistency). Level the cement and you are ready to lay the tile. After soaking the tile for an hour in clear water it should be laid out on the floor so that there will be no delay in selecting the pieces. You should start with the outside or front row of the hearth and finish at the chimney. When the tile has all been laid and fitted to place, wedge them all around the outside to keep the hearth from spreading, and hammer the tile down lightly with a wood block or smooth piece of board so as to bring the surface flush with the finished floor line. This leveling by light pounding ought to lower the tile about ⅛ inch. See that the tile all set nicely in position, as level as possible, and the joints in perfect alignment. Then mix a little Portland cement to the consistency of thick cream, and wash it over the surface, working it into the joints where needed. After this has partially set wipe the tile perfectly clean with sawdust or shavings. Care should be taken to remove all of the cement from the surface of the tile while it is still soft, as it is very difficult to remove it after it has set.

You will now proceed to lay up the facing. The tiles for this should he laid out on the floor the same as you did for the hearth. Mix Portland cement for the facing half and half with clean, sharp sand and lay up the facing tile, breaking the joints carefully, keeping them in straight alignment and keeping the surface plumb and even. Care should be taken to have the tile flush with the edge of the fireplace opening and also to see that it does not fall short of the outside lines previously marked on the rough chimney breast, for otherwise the ends of the tile or the edge of the facing will show after the mantel and grate are set in position. The finished fireplace opening in the tile work should measure exactly 24 inches wide by 30 inches high or 30 inches wide by 30 inches high, as the case may be, since the grate outfit frames are made to lap over ¼ inch on all sides and thus hide the edge of the tile work.

After the hearth and facing have become thoroughly set you are ready to place the mantel and grate outfit in position. If you have a coal grate similar to our No. 81 you will fasten the frame in position with wires attached to the upper corners and pulled tight around nails driven into the brick work of the chimney. The dummy outfit is also held in the same way, but the complete patent coal fireplaces like our Nos. 35, 78, 128 or any of our gas grates are simply set back into the fireplace opening and are not fastened in any way. If you have been careful to do the tile work properly the frame of the grate outfit will fit neatly up against the tiles and by its ¼-inch lap on all sides will carefully hide the edge of the fireplace opening.

You will now drill and plug the chimney breast at the places where the mantel is to be screwed and then set the mantel against the wall. Three good size brass screws should be used on each side, and if the work has been properly done the front of the mantel will fit snugly up against the tile facing and the back of the mantel will fit tightly against the chimney breast.

If you find it necessary at any time to cut either glazed or matte finish mantel tile you should scratch a line on all four sides at the place you wish to make the break and then strike the tile sharply on the back, opposite the scratched lines on the enamel and you will be able to make a neat, clean break. If the ends are a little rough they can be ground smooth on a brick or stone.

HOUSE FURNACE DEPARTMENT

Greater Values in house heating and ventilating furnaces were never before offered by us or any other furnace manufacturer. We heat your house. We ventilate your house. We keep the warm air pure and in constant circulation. We are manufacturing the best line of hard coal, soft coal and wood furnaces that can be had anywhere and at prices so low as to attract orders from dealers everywhere on account of the high quality, scientific construction, durability, efficiency in ventilative heating and the low prices we make.

$35.10 and Upward according to equipment and fuel used. These money saving and "live and let live" prices are the actual cost of material and labor, with only our one conscientious margin of profit added.

Write for Our Special Catalog of hot air warming and ventilating furnaces with question blank or information sheet. Or, better still, send us a rough sketch of the floor plan of your house, showing points of the compass, or which direction the house fronts, giving careful inside measurements of all rooms in the house, regardless of which are to be heated, showing the location of the doors, stairways, offsets, bay windows, etc., size and sketch of cellar, showing under what rooms it is located, giving location and size of chimney flue and height of cellar, and we will give you an exact estimate of cost, including all wall pipes, basement pipes, registers and everything necessary to heat the house properly to an average of 70 degrees in the coldest weather. If you are building a new house or remodeling an old house you cannot afford to be without our prices. **Get our estimate now** and order early, as it always takes two weeks to get out your order, and in the fall rush it would take four to six weeks.

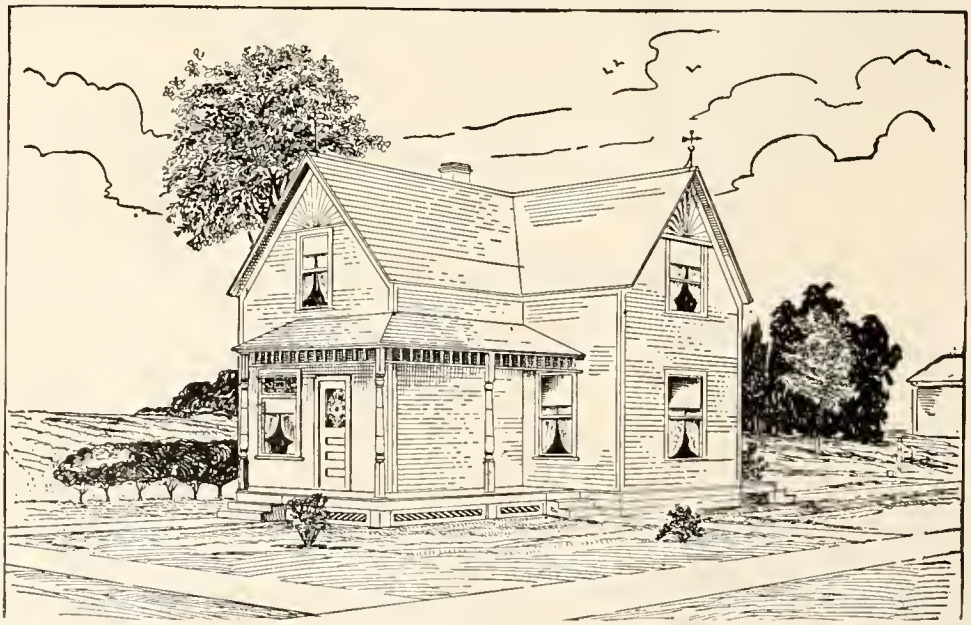
$54.41 WILL HEAT A HOUSE OF THIS SIZE COMFORTABLY

$54.41 will purchase a complete Hot Air Heating Outfit for a house like this, using our Acme Hummer Soft Coal Furnace. For $57.03 we can furnish the complete equipment using our Acme Tropic Hard Coal Furnace. We give you a first class heating plant all ready to install. All that is necessary is to put the different parts together according to our plan of installation, furnished you free. Wonderful values like these are only made possible by our modern system of selling goods direct from the factory, and avoiding the old fashioned high selling expenses. This will give you some idea of how much we can save you on a heating plant, and if you are interested, do not fail to write us, no matter how small or how large a house you have to be heated.



THE DAY OF HIGH PRICES IS GONE FOREVER!

This applies to all our goods and our furnaces and fittings in particular. Our modern method of shipping direct from factory to user eliminates all middlemen's profits. By the old fashioned system the manufacturer sells to the wholesale houses and these in turn sell to agents and local dealers, who sell to the user. Not only does the wholesaler put aside a profit for himself, but he must get a profit big enough to cover his expense and leave a margin for him. With high priced traveling salesmen and expense details, the goods which are being sold are nearly doubled in price before they reach the user. We have no agents or representatives and do a strictly mail order business. We sell at the actual cost of manufacture with our one conscientious margin of profit added.

If our prices were not so much lower than those asked elsewhere, if our quality was not uniformly high, if our policy was not to give the greatest possible value for the money, we would have been unable to build up this big business of ours, and now that it is built up, it enables us to still further reduce our prices, and enables you to double the value of your dollar on every purchase you make.

REMEMBER, WE CAN HEAT ANY HOUSE ANYWHERE, whether it be a cottage, residence, flat building, schoolhouse or church and guarantee to heat the building to 70 degrees in the coldest winter weather.

FIR EDGE GRAIN FLOORING for porch floors. The best known wood for this purpose.

CYPRESS PLANK for porch steps. There is no wood better for this purpose than our cypress plank.

CYPRESS FINISHING LUMBER carried in stock for interior and exterior use. Cypress is the very best known wood for outside finishing. Time has proven this wood will last longer than any other where exposed to the weather.

BYRKIT PATENT LATH, which is sheathing and lath combined, is a great saving in expense.

PINE LATH. All our pine lath is kiln dried and extra fine stock.

ROSEMARY. SOFT SHORT LEAF PINE. Siding, ceiling, flooring, finishing lumber, dimension timbers, sheathing, etc., all furnished in Rosemary short leaf pine. This pine is considered and acknowledged everywhere as the most desirable yellow pine which grows. This Rosemary species is singularly free from defects and is much preferred by carpenters to hemlock, tamarack, Norway pine and so forth. Our lumber all comes from this Rosemary short leaf timber belt, and is the softest and most easily worked yellow pine that grows.

Throughout our entire line of building lumber we carry the very best known kinds of wood and designs for different building purposes. From us you can buy the best shingles, bevel siding, lath, porch flooring and finishing lumber that is produced in this country.

Why pay retail prices for lumber? We will supply you framing and dimension lumber, flooring, drop siding, bevel siding, ceiling, partition, sheathing, studding, sills, shingles, lath, in fact lumber of every description at **strictly wholesale prices.** We will ship your order direct from our own big lumber mill and charge you the same low price the big mills usually charge the retail lumber dealer. **We can save you all the profits** and all the handling expense that ordinarily goes to the retail dealer. We will sell you lumber at the very lowest wholesale prices.
